bust profiler

Training Course for **Beauty Professionals**

For centuries African women have been using the plant extract Kigeline to preserve and improve the tone of the breast as well as surrounding muscle and ligament tissue. Extracted and pulped from the fruit of the Kigelia tree, Kigeline is a rich fibrous fruit and is used for its natural firming properties.

As the body ages, the skin and muscle elasticity begins to break down, leaving a poor tone and relaxed tension of the tissues, use of the bust profiler allows this to be improved.

The training will include:

- Theory and practical.

Delegates will learn:

- The complete theory behind the use of Kigeline and why it works.
- Benefits and effects of the treatment.
- Aftercare to maintain results.
- How to market the treatment to clients.

Who this course is for:

Delegates who are studying towards their Level 3 NVQ or equivalent qualification.

Duration:

The session will last approximately 3.5 hours and can be incorporated into either a morning or afternoon session.

How to Book:

If you would like to book training with us then please call the sales office on **+44 (0)1543 416611**
